- Half-day workshop on requirements for internal communication
- Introduction to the basics and structure
- Discussion of details and configuration

Automated installation

- Automatic setup and configuration in corporate environment
- Home page, Viva Connections home page and three area pages
- Adaptation to corporate CI/CD
- Header navigation
- Intelligent search function

Content support

- Consulting and support (contingent of 20 hours)

Advantages

- **Optimised internal communication and collaboration:** The basic intranet solution provides you with a central platform for distributing news, updates and announcements to your entire workforce.
- **Cost-efficient intranet solution:** In contrast to complex and costly intranet implementations, the SharePoint intranet offers a cost-effective alternative.
- **Quick and easy to set up:** With our three-step method, you can set up and use your intranet in no time and with minimal effort.
- **Scalability and customisability:** The solution is designed to adapt to your future needs - making it scalable and customisable.
- **Integration into your Microsoft strategy:** Use existing Microsoft licences by using SharePoint as an intranet platform.
